Summary

I made this to prevent my USB/HDMI laptop adapter from overheating.

[Gadgets](#) > [Computers](#)

Tags: [air](#) [adapter](#) [usb](#) [cooling](#) [hdmi](#)

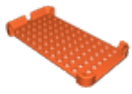

This model is designed for:

USB C to Dual HDMI Adapter, 7 in 1 USB C Docking Station to Dual HDMI Displayport VGA Adapter, USB C to 3USB 2.0, Multi Monitor Adapter for Dell XPS 13 15, Lenovo Yoga, Huawei Matebook X pro, etc.

so that it doesn't overheat during extended use.

I put tiny stick-on rubber feet on the underside to slightly elevate it for cooling.
