This fits my stock Ninja 400 (2023 model). I printed mine in resin, but should work with PLA as well. I included multiple files just in case someone wanted to alter it. Bolt hole pattern is 146mm wide, 70mm tall, and 161.914 mm diagonally. The bolt holes are 7mm in diameter. If you want a custom text that you can't add yourself, just shoot me a message :D It needs supports unless you purposely go -Z in the slicer with the model to make the back of it completely flat.

Print Settings

Printer Brand:

ELEGOO

Printer:

ELEGOO JUPITER

Rafts:

No

Supports:

Yes

Post-Printing

Enjoy :)

How I Designed This

I used OnShape.

Category: 3D Printing
