Fourth wing dragon earrings I designed.

.2mm Nozzle needed for detail of the second dragon. Print pauses so the filament can be swapped out manually.

I also printed this on the rainbow PEY plate so the back can be nice and sparkly too.

Needs earring hook and jump rings, I used 6mm OD jump rings, Probably won't work if you go any larger as they'll be too thick (smaller 4mm will probably work though). Jump ring is threaded through the dragons head. The earring hook needs to go in a specific way so the earrings face the correct way, be mindful.

It can be scaled up or down but if you scale it down make sure the 2nd dragons tail is at least the width of your nozzle.

Enjoy! Please download and like, Thank you!

My Makerworld print can be found <https://tinyurl.com/2wermpd> ←add a K to the end cause printables is petty
