[Sports & Outdoor](#) > [Outdoor Sports](#)

for STOOTS CALDERA 1 lamps, the one with the 2 flat telephone-style batteries.

3 types of boxes:

-box with cable outlet at the bottom
-box with cable outlet under the cover on the RIGHT, this requires removing the cable passage on the battery to be able to fold the cable upwards.

- box with cable outlet under the LEFT cover, this requires removing the cable passage on the battery to be able to pass the cable to the outlet.

these cases are designed to be fixed with 2 screws on a helmet, and to be closed by either a rubber (a section of an MTB inner tube does very well) or even a scratch. pour les lampes STOOTS CALDERA 1, celle avec les 2 batteries plates style telephone .

3 types de boitiers :

-boitier avec sortie du cable au fond
-boitier avec sortie du cable sous le couvercle a DROITE, cela necessite de supprimer le passage de cable sur la batterie pour pouvoir replier le cable vers le haut.

-boitier avec sortie du cable sous le couvercle a GAUCHE, cela necessite de supprimer le passage de cable sur la batterie pour pouvoir passer le cable vers la sortie.
ces boitiers sont etudiés pour etre fixés avec 2 vis sur un casque, et etre fermé par soit un caoutchouc (une section de chambre a air de VTT fait tres bien l'affaire) soit un scratch. NEW Version this day, with more bigger the pass of the cable in high versions (4,2mm)
