Summary

Wall mount your Magsafe charger with one axis movement

[Art & Design](#) > [Wall-mounted](#)

Tags: [wallmount](#) [magsafe](#)

You need two m3 heated inserts and two M3x8 cylinder head screws.

I made it modular so it could be adapted for specific needs.

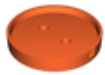

Tolerances are quite tight, so make sure your printer is well calibrated.

If you design other mounts it would be nice if you share it, so we can hold them in one place.

Onshape model (you can export in many formats there): [Onshape Source](#)

09/10/2023: Added wallmount for glue mounting (Bigger surface)
