Please note that to get it shining you have to buy lamps!

I bought mine at

<https://www.24.se/hem-fritid/belysning/ovrigt-belysning/led-garderobslampor-med-fjarr>

You also have to buy 6\*3 AAA-batteries and one CR2025 or 2032 for the remote control.

Anyway, it's a hobby :-)

Print with PLA.

Note that the big Hex nuts is from another project of mine. Check'em out!
