Summary

MagSafe and Watch Stand with hole

[Gadgets](#) > [Portable Devices](#)

Tags: [office](#) [apple](#) [iphone](#) [iphonestand](#) [magsafe](#) [chargers](#) [watchcharger](#)

Thanks to @GR_388774 and @@Thomas_50404 for their design. The watch charger (I use it for my AirPods) is not snug enough to hold the charger tight. I just put a piece of the purge line between the charger and the part. That will fix the "issue".

This remix is based on

MagSafe iPhone and Apple Watch Stand
