## Summary

Cardholder for Keychain

[3D Printers](#) > [Accessories](#)

Tags: [keychain](#) [cardholder](#) [yubikey](#) [company](#)

I designed a minimalistic card case for the key chain. It can be printed without support. A design with an additional Yubikey holder is also available.

usa a brim for better stability.

I tested the modell as PLA and PETG version, PLA is easier to print, PETG gives you more durability.

for the Yubikey Version, you need a Magott Screw M4x8
