### Summary

Have a Scosche magnetic phone mount but can't / don't want to put a metal plate on your phone/case? Here is my solution

Used to mount a traditional cradle in the ball socket of the Scosche MagicMount Magnetic Car Phone Mount. Wife's case didn't allow us to put a metal plate on it to use the traditional mount so I made this to act as a cradle instead. The one I made for my wife I embedded the "I Love You" message on, but the published version does not have that.
