## ORC BACKGROUND

So I've had a few questions about the Vog Orc, mostly along the lines of, "Where's his trousers?"

Well, this is because the Orc's of Vogland are a strange breed. Fiercely proud of their shiny codpieces, they typically wear nothing else, other than a stout pair of boots.

Even their armour is skimpy. Vogland Orc's generally stare across the battlefield, locking eyes with their foes, and polishing their codpieces with great enthusiasm. This alone is usually enough to disturb the enemy. Download the Vog Orc and paint him any way you like... just have fun doing it and don't take it too seriously. That way lies madness!
