USE THE SHORT FILE FROM THIS AND TE LONGER FROM <https://www.printables.com/model/609935-turn-you-esun-spool-into-a-refill-spool-v3>

this model is better because the old model doesn't print right

with this model you can turn your spool into a refill spool. I didn't wanna print a whole spool because the cost and time. I modeled this of a esun spool but you can scale it to fit every spool.

just cut the spool in half and push each part in a half if needed ad glue. to cut the spool in half you can use this model
