Quite heavily modified version of [Julia Ebert's Mega Lego-like Skeleton \(10:1 scale\)](#). This version would be 4:1

This version can be printed in one go on mk3 + additional 15min print for the face features.

In this remix I've changed the way parts are cut for print to make the limbs more durable. Also there's no need to print the pins for assembly, instead you can use the cuts of 1.75mm filament

This remix is based on

Mega Lego-like Skeleton (10:1 scale)

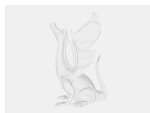

by Julia Ebert
