Summary

The integrated heater bleed key and a collection container makes bleeding your heaters super easy.

It is again the time to throw the heaters on, also the time to bleed the heaters. I have already printed something similar some years ago but unfortunately no longer found therefore I have tinkered a new one.

No support needed, just part cooling.

You can see the difference between the two key versions here:

standard version

The slightly larger version

(also a little more grippy)

Model files

czfa_heaterbleeder_case.stl

Bigger version

czfa_heaterbleeder_slimcase.stl

Smaller version

czfa_heaterbleeder_key.stl

The opening at the front is about 5.1 mm

czfa_heaterbleeder_key_larger.stl

The opening at the front is about 0.3 mm larger (5.4 mm) and the wings are a little more grippy
