## Summary

Mini Paper Bag Lanterns for Halloween

Seasonal designs > Autumn & Halloween

Tags: halloween light ghost pumpkin halloweendecoration jackolantern frankenstein tealight 3dpmom

These Mini Bag Lanterns were inspired by paper bag lanterns or luminaries. They print flat and then are folded into shape. I designed them to be used with standard size tea lights:) These could also be used as little gift bags filled with candy, gift cards, etc.

The following STL files are included:

(1) Frank Bag

(2) Jack Bag #1_with cut-out face

(3) Jack Bag #2_double-sided

(4) Ghost Bag #1_with cut-out face

(5) Ghost Bag #2_double-sided

3D PRINTING SETTINGS

Layer Height 0.2mm

PLA works great

15-20% Infill

I did not use a brim but you could if you'd like.

Dimensions of Mini Bag Lanterns 3.25in. X 2.5in.x 2in.

For the Frank Bag, Jack Bag #2 (double-sided), Ghost Bag #2 (double-sided) schedule pause for color change at layer height 1.0mm (see photo:)

See photo for how to fold bags.

I think these bags turned out pretty cute and they are a fun fast print coming in around 2 hours for me. Have fun printing
