Introducing 'the Cute Halloween Bat,' an easy-to-print (even without supports) little darling to add some charm to your Halloween.

Just take a look at that adorable face and those cute ears. He may be small, but he has a big heart and will undoubtedly make your Halloween even more enjoyable. Simply load your favorite Halloween-colored filament and start printing. Supports are not required, unless you're a perfectionist. In that case, some minor supports may be used on the wings (even without them, they will look great from the 'outside')
