DUMMY 13 loves COMIC CON!

So I have started to design a whole series of characters and costumes for DUMMY 13. This is another costume from the series "DUMMY13 goes to COMIC CON".

The aim is to preserve the charm and simplicity of Dummy 13.

Content of DUMMpool, sorry Deadpool:

- A mask to use with any already printed "black" head
- Deadpool buckle to use with **DUMMY 13 - Belt, buckle and props**
 - **For 0.25mm nozzle ONLY.** The eyes on the buckle are too small for a 0.4mm nozzle!
 - **0.05 mm layer height**
 - **If the buckle does not fit on the belt pin, cut out the first layer in the hole (elephant foot effect)**
- A multi part / multicolor armor for a more realistic look
- No supports needed
- Default layer height 0.15 mm

- **The files are aligned the way as they should be printed**
- Other parts are standard parts that are just printed in different colors (see pictures)

Add-ons:

- Weapons and holsters
- Armed hands (desert eagle 50, like in the movie)
- Belt, buckle and props
- Emotional masks
- Dual katana and holster (modular)

ADD-ONS:

DUMMY 13 - Acrobatics pedestal - Pose stand [/model/692455](#)

The holsters and armed hands have been heavily modified and transferred to a new set.

DUMMY 13 - Weapons set - Desert eagle 50: [/model/627498](#)

DUMMY 13 - Dual katana holster set V2.x - slim, modular:

Armor:

The armor parts should be printed with different colors and then glued. The pins are to ease the positioning.

MASK:

Slide the head into the mask and press it in with gentle force on the chin.

If this is not possible, it is probably due to the following points:

- Check the inside to see if it has been printed cleanly and remove any filament debris that is sticking out
- Has the brim been removed cleanly?
- The elephant foot can cause the inner rim to be a little too narrow, just sand the inner rim down a little or work it with a knife

Stay tuned , there will be more costumes to come ;)

Have fun!
