Summary

Remix of a design by MaxT. Upscaled 120 %, prints on 180 x 180 mm build plate.

Seasonal designs > Winter & Christmas & New Year's

GENERAL
I found the the original size too small. I scaled up to 120 %.
But then the middle ring was too big to print on my Prusa Mini.
So I split the middle ring into 2 parts.
Furthermore the base plate was redesigned to make assembly of the decor sheets easier.
PRINTING
I printed with white PLA+ filament on a Prusa Mini.
Decor sheets: First layer 0.14 mm height, second layer 0.10 mm height.
Base Stand: 0.2 mm layer height.
ASSEMBLY
I glued the lips of the decor sheets to the circular slots of the Base Stand.
OPERATION
Only use LED tea candle.
