Summary

After my Simple Universal Phone Stand that got featured I got a new Iphone.

[Gadgets](#) > [Portable Devices](#)

After my Simple Universal Phone Stand that got featured I got a new phone. So I made a phone holder version 2 for bigger phones and other improvements.

You can print it on the side as shown in the picture.

NOTE: If your phone is to big you can simply scale the stand!

The dummy phone is a Iphone 11 pro but any phone can be put on it in portrait and landscape mode.

Print instructions

As shown in the picture, print it on it side.
