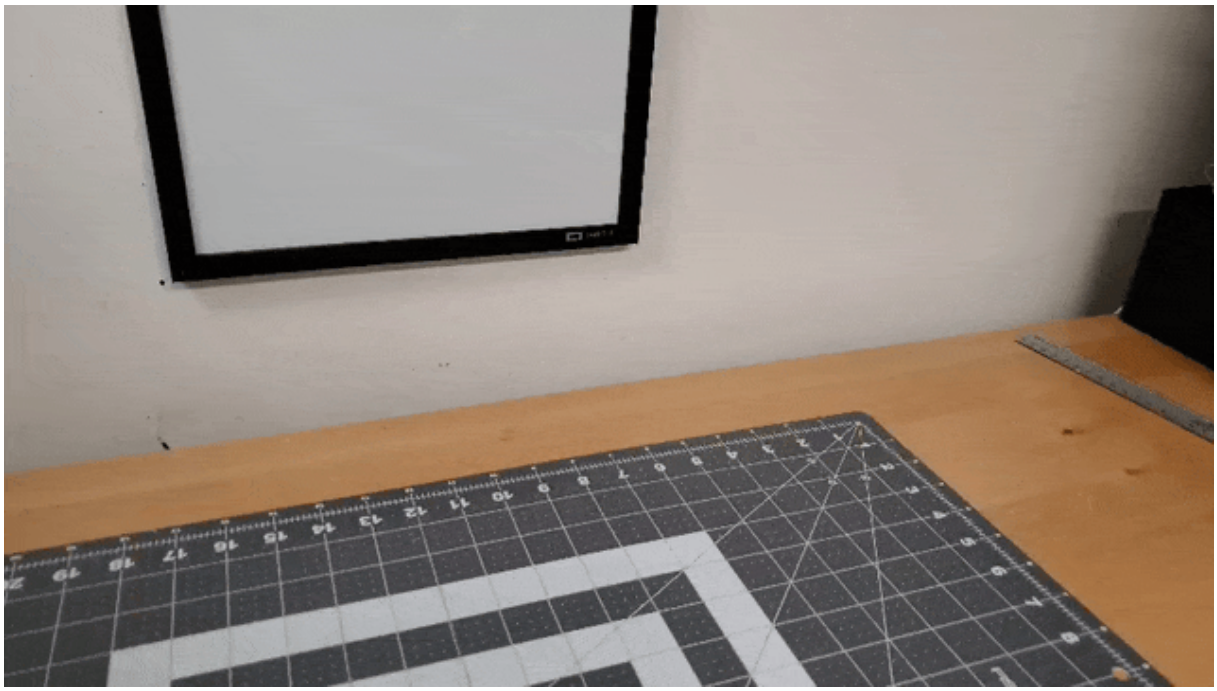
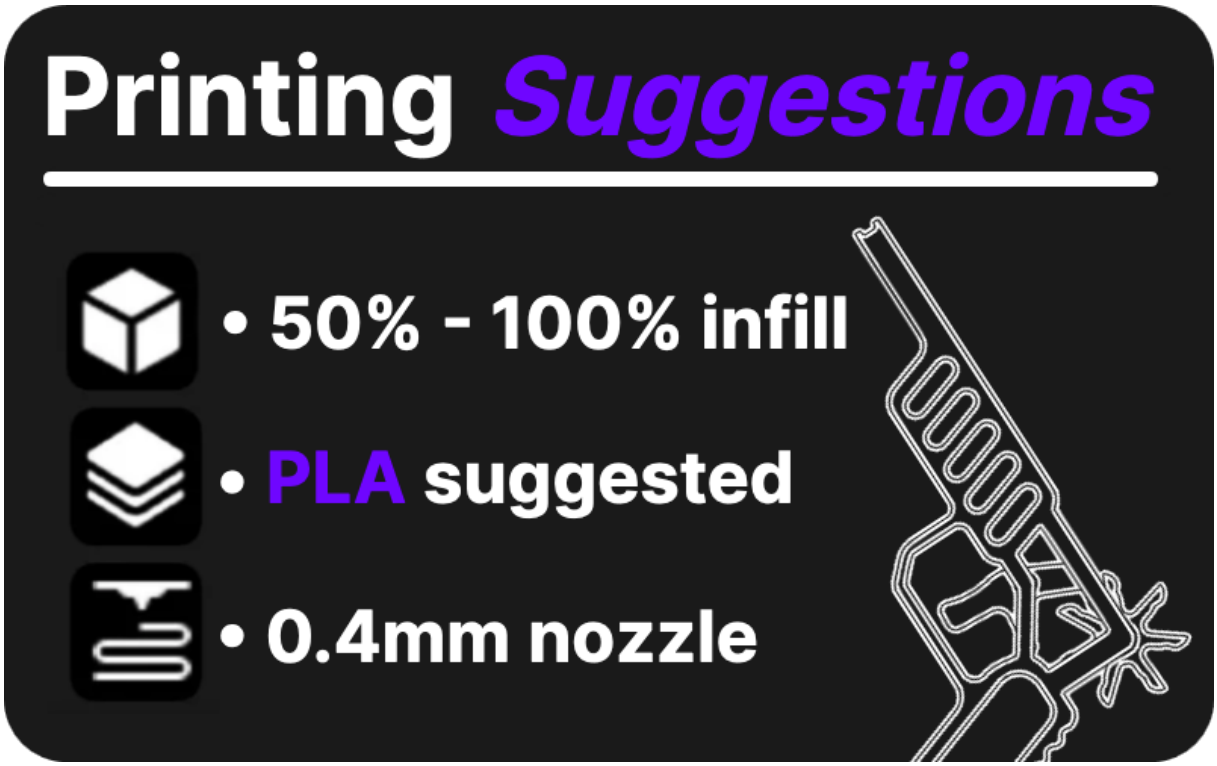
Rubber band gun thing:



Something i was planning to finish for a while but had been stuck on my hard drive for too long, It's a pretty simple design with an escape mechanism that shoots rubber bands when you pull the trigger.



UPDATES :Feb 14 2024 : “EZ” variant released (easier to print and stronger)
Commercial use :

Want to use it for commercial purposes? Sure, i allow it as long as you credit me as the creator.
