Summary

BUILD AND USE AT YOUR OWN RISK

[Hobby & Makers](#) > [Tools](#)

Tags: [tool](#) [handle](#) [blade](#) [cutter](#) [fidget](#) [mechanical](#) [mechanism](#) [knife](#) [accessory](#) [razor](#) [tools](#) [utility](#) [edc](#) [cutting](#) [razorblade](#) [razorholder](#) [rope](#) [pocketknife](#) [karambit](#) [utilityknife](#) [razorbladeholder](#) [csgo](#) [flexure](#) [utilityblade](#) [csgoknife](#) [fidgetknife](#)

I had old utility blades with no usage laying around until I found this awesome [design](#).

I thought a few improvements could be made, so I changed the design a bit and added “grippy” features and “clicky” flexures.

You can find a video of me opening and closing the karambit package opener here:

PRINT, BUILD AND USE AT YOUR OWN RISK.

This is very dangerous and you can easily cut yourself!!!

"Extra materials:

4x M3 12mm bolts

1x M3 8mm bolt

5x M3 nuts (low profile is better for me but its up to you at the end)

8 x washers" - **Oki**
