A cool checklist / to do list in which you can insert paper and close the cover to secure! The model is print in place and comes off the bed with moving sliders and hinges. Comes in three variants, normal, one for hanging e.g. on a wall or Ikea skadis, and one with holes for magnets (6mmx3mm).

Update 17 November 2024:
- Added extra tabs on hinge

Dimensions:
194x200x5mm (open)
194x120x5mm (closed)

Print Tips:

- If your printer accuracy is not the best and the sliders are not moving choose to print the LOOSE files.
- Print in place model that comes off the bed with moving sliders and hinges.
- No supports required
- For multi color a color change in your slicer can be done to make the borders, text and buttons a different color. See the photos for prusaslicer instructions.
