Hi Everybody

I designed a removable handle for dremel wrench. In order to make it identical, easy to see arround and not to loose it.

I added logo. For printing logo i attached every file you may need.

Also, There 2 each different body i designed accordindg to your screw and nut availability, first body is for m3x5 plastic screw, second body for m3x5 screw and m3 nut. Please check your warehouse before you choose the body type.

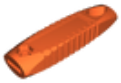

Have fun.
