Chances are you've heard about ocarinas thanks to the Nintendo game The Legend of Zelda: Ocarina of Time, whereas the name suggests, it plays an important role. Print this one in Blue and use to Triforce collar to make it look like the one from the game :)

Print orientation

As Gabriel_Knight pointed out, it might actually better to print this with the pointy end down, not up, as I initially thought.

Video of the ocarina in action How to play - Note chart

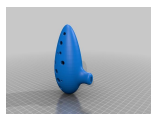

Model authors and licence

This upload is essentially a remix and a collection of various remixes.

The original Ocarina was created by [Nimaid](#). It was later remixed by [RobSountrack](#) to play better. [Mystikal](#) re-created the Ocarina stand that went missing in the original upload. Mystikal also created the triforme collar. I've simply bunched the files together and slightly edited the collar to have a flat bottom.

This original upload by Nimaid has a [Creative Commons - Attribution - Non-Commercial - Share Alike](#) license. So that's the licence I respect and also chose for this print.

This remix is based on

Basic Working 12 Hole Ocarina

by nimaid
