This is a remix of <https://www.thingiverse.com/thing:770638> to make it fit for Original scrabble tiles. Also I added Text to the back, so the opponent can see it.

You need openscad "write" for this. https://spolearninglab.com/curriculum/lessonPlans/hacking/resources/software/3d/openscad/openscad_write.html

Just put the files in the same Directory as the downloaded scad file from here, go the bottom in openscad and change the name.

I'd love to see some makes!
