

ADKS - Ender 3 Extended Rear Case for 4 x LM2596

Dingo

[VIEW IN BROWSER](#)

updated 25. 11. 2023 | published 25. 11. 2023

Summary

A remix to include 4 buck/step-down converters

[3D Printers](#) > [Creality Parts & Upgrades](#)

Something I put together a while ago and still needs a little cleanup, but prints great and fits mine perfectly.

Currently printing another one in better quality for a coming rewiring job, but have printed this at 0.32 with success.

This remix is based on

ADKS - Ender 3 Pro/St Rear Case v3 (No supports needed)
