updated 17. 12. 2023 | published 17. 12. 2023

## Summary

Replacement peg for older Ikea wooden coat hanger.

[Household](#) > [Home Decor](#)

I print them with 2 extra infill walls and at a 60% infill for strength so my kids don't snap them off when they hang their backpacks on them

also they print much better and without supports if you orient the round end to the build plate
