I printed the parts from [Resin Vat Drain Stand for Anycubic Resin Printer M3 & M5s von CL Performance | Kostenloses STL-Modell herunterladen | Printables.com](#), but there was not the vat holder for M5s.

So I designed a new vat holder. All other parts are from [Resin Vat Drain Stand for Anycubic Resin Printer M3 & M5s von CL Performance | Kostenloses STL-Modell herunterladen | Printables.com](#) :-)

But now, there is also a new one, but my vat holder is bigger so there is more stability in the system.
