updated 26. 11. 2023 | published 26. 11. 2023

Summary

This model is for the JEYI 2230 NVME Enclosure (I.e., the same SSD form factor as the Steam Deck and other laptops)

Tags: [office](#) [honeycomb](#) [ssd](#) [nvme](#) [steamdeck](#)
[honeycombstoragewall](#) [hsw](#) [2230](#)

I had a few 2230 NVME SSDs lying around in some aluminum external enclosures. I've included two variants of the model with slots for one or two of these enclosures.

This is the model of enclosure that is supported:

<https://www.amazon.com/dp/B0CDKX4CF4>

Supports: No

Infill: 15%
