Summary

An upright piggy bank that can hold both coins and bills.

[Household](#) > [Other House Equipment](#)

This is an upright piggy bank for the piggy bank flash contest, and my first model on Printables! Smaller coins can be inserted through the ears, and larger coins as well as bills can be put in through the mouth. The head and body are printed separately so that you can take the money out. I have not printed this yet, so print with supports just to be safe.
