Winter is coming which means a lot more indoor time. Now you can take the fun outdoor games indoors!

Modeled after the popular “KanJam” game, this table top version allows you to play as small (or as large) of a game as you want!

Model can be scaled in any direction to fit your playing needs. The Kan prints upside down with tree supports (to minimize amount of support needed) and the frisbee uses standard supports. STL included so you can print with whatever settings you prefer.
