Tags: [roborock](#) [roborocks50](#) [roborocks5](#)

Replacement tread for the Roborock S50 / S5 robot vacuum.

Printed in eSun TPU 95A Flexible. This TPU feels slick to the touch but seemed to have enough grip on tiles when in use. A softer TPU may work even better; must be printed in a flexible filament.

Cut or peel off the old tread and simply slip on the replacement.
