I needed something to hold the hex wrench for my bike rack in the trunk of my car so I don't lose it.

It's a 3/8" hex wrench for a [1-Up-USA bicycle rack](#).

It bolts in place using the existing sub-woofer mounting bolt in the trunk. Use a 13mm socket to get that off, pop this on, and bolt it back together. This fit my 2019 Ford Mustang. It will probably fit other vehicles.

### Print Settings

#### Printer Brand:

Prusa

#### Printer:

I3 MK3S

#### Rafts:

Doesn't Matter

**Supports:**

Yes

**Resolution:**

.2

**Infill:**

20%

**Filament:**

Prusament PETG Black

**Notes:**

I printed it with support on the inside of the hex cavity.
