---

This is yet another headphone mount. I made it for my Philips SHP9500 and it should work for any over-ear headphones.

It is made to be screwed to a wall or other vertical surface. The screws are hidden for a clean look.

The screw holes are sized for #6 flat head wood screws. In metric land, M3.5 should work just fine.

## Print Settings

### Printer Brand:

Prusa

### Printer:

I3 MK3S

### Rafts:

No

**Supports:**

No

**Resolution:**

0.2mm

**Infill:**

10%

**Filament:**

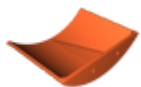

Prusament PLA

**Notes:**

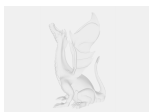

I used PLA but anything should work. It's designed to print without supports. It's really strong, so even 0% infill should work fine.

Category: Audio
