Summary

Small, ammo box sized, desiccant boxes.

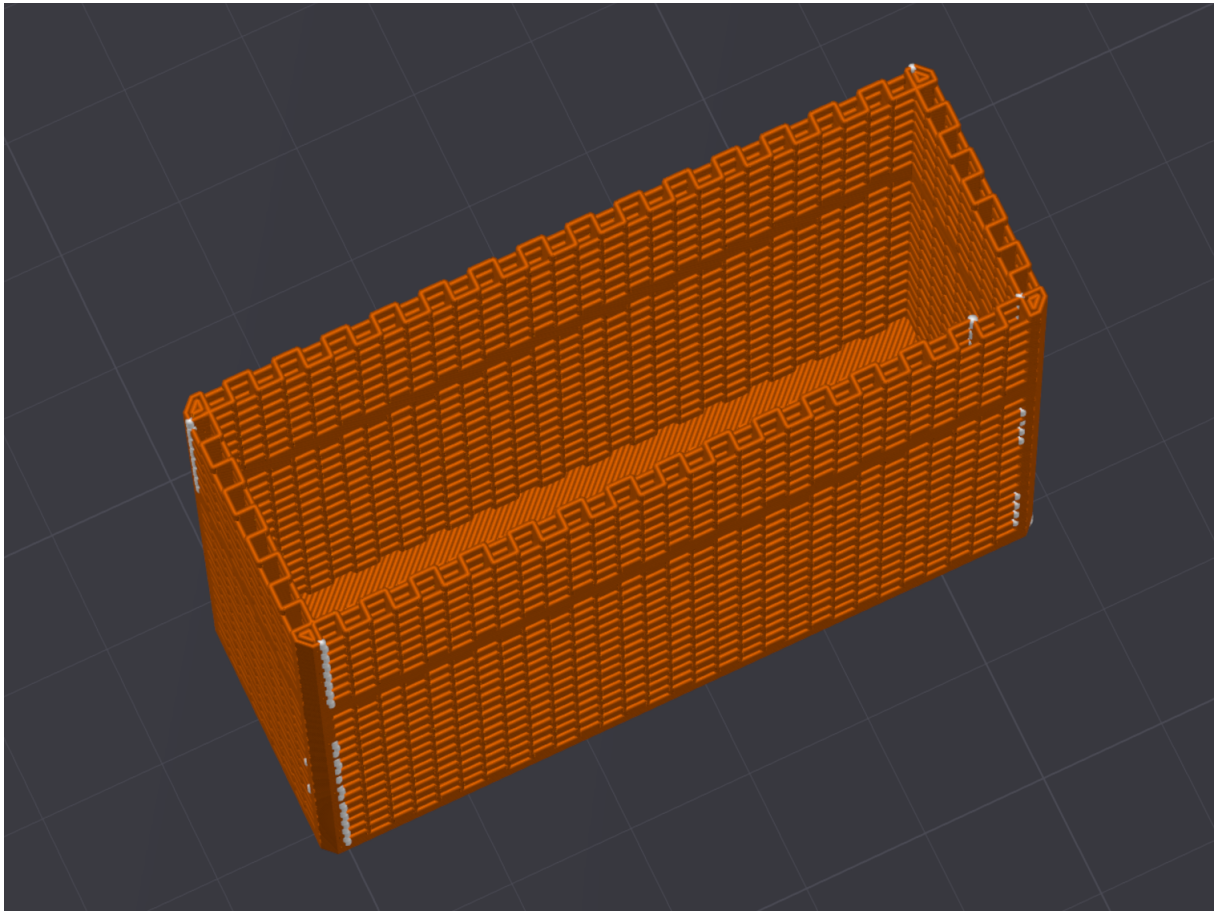

[Hobby & Makers](#) > [Tools](#)

Tags: [ammo](#) [storage](#) [dessicant](#) [desiccant](#)

Keep your cartridges dry! Some small desiccant boxes, conveniently sized to a standard 5.56x45mm ammo box.

Uses a fast printing “basket-weave” pattern (large container can be printed in under 1.5 hours). Holes are sized for desiccant beads larger than 1.25mm. **Optimized for 0.2mm layer printing with a 0.45mm extrusion width.**

Thanks to [PsychProd](#) & [TonyTsai](#) for their inspiration for this “basket-weave” pattern.
