Summary

Hello, i had some issue with the motors hitting the top of the Covers.

[3D Printers](#) > [Voron Parts & Upgrades](#)

Hello, i had issues with the moons motors hitting the top of the Z covers with my formbot kit.

These covers will allow extra room when printing your first layer.

Print using your own settings, i did 0.16 on the bambu with 30% infill.

I recommend using Counter sunk M3 screws 6 to 8mm
