Summary

I didn't fully like the fitment of the original box, so I made my own remix.

[Hobby & Makers](#) > [Tools](#)

Tags: [ts100](#) [heatsetinsert](#) [pinecil](#)

This is a remix, I made the heatset tools fit better, the lid to close nicer, and all tolerances are made for printing with abs/asa in mind. The heater pocket is too big, so it will fit all variances described in the original holder.

No supports required.

Magnets:

- 6x 4mm x 6mm magnets (Diameter x Height).

TS100 threaded insert tips can be found here:
