Tags: [hexagon](#) [ikea](#) [fpv](#) [screwdriver](#) [skadis](#)

Dimensions are as the original model:

Big holes: 18.5mm/6mm (inner size)

Small holes: 10mm/4mm (inner size)

If you like this please post a make!

Print settings:

PETG, 15-20% infill (I used cubic bc I like cubic), 3 wall perimeters, 0.2 layer height, add support for hooks (easy to remove, they even stay stuck on the bed when removing the print)
