## Summary

You'll find the box and lid here. You can use it to sort your coins.

[3D Printers](#) > [Accessories](#)

You need to put your coin in the top right-hand corner of the photo. It will slide and fall into the appropriate hole for its width. Each hole has a defined area, allowing you to sort your pieces. The lid is also on file so you can't see the system. All you have to do is remove the lid to retrieve your sorted coins.
