Summary

Fun wall light, for my wife for Christmas

My wife has been looking at a giraffe wall light so I decided to make her one for Christmas(what she was looking at looks nothing like this so I need to wait a month to see if she likes it).

All printed at 0.2 with supports on the head only, printed the pins at 96% I think to make them fit easily as they are only there to help line things up.

Hope someone likes it please post a make if you do it.
