Tags: [case](#) [lighter](#) [pipe](#) [weed](#) [tobacco](#) [blazebuddy](#)

This is a simple case for a Blazebuddy "tabacco" lighter/pipe. This is for the original version of the Blazebuddy where the bowl is covered with a plastic circular disc. I have not tried to use it on the other newer versions.

The holes in the case are designed to fit small magnets that can be purchased. Here is a link to the ones that I know will fit. [Magnets for case](#).

Magnet Specs:

1/8" x .6" Rare Earth Magnets, qty 6
Metric= 3.18mm x 1.53mm

Printing Notes:

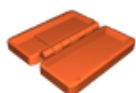

Printer: Ender 3

Scale: 100%

Material: PLA

Supports: YES
