Summary

A copy (reupload) of the Tool Holder made by @Prusa3D but I added 3 text-labels for my extruder nozzles.

Tags: [enclosure](#) [nozzle](#)

The difference between my version and the original:

The original is a .stl file. I added two 3MF project files: One for the mini+ and one for MK4

- added organic support
- added 3 labels for the nozzles I will be using
- added 2 support blockers because of the screw holes

This remix is based on
