Summary

A simple model to attach a Lmnts Aurora 2000 headlight to a bike.

[Sports & Outdoor](#) > [Outdoor Sports](#)

Tags: [light](#) [bikemount](#) [bracket](#) [bike](#) [headlight](#)

Simple model to attach a headlight to a bike handle, while still being able to use it as a headlight.

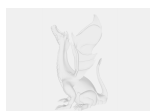

Printed in petg, 0.6 mm nozzle with organic supports.

Also, should be printed on the side for strength.

See [hodelyktfeste-v3-print.3mf](#)

Also needed is 2x. M3x16mm screws. Preferably in A2/A4 to prevent rust.
