I designed this vials holder for a specific L&G ® gin kit but it can also be used for example as a vial holder in a chemical laboratory or for inspire other designs.

It is divided in 2 parts, the main holder and the cap. The cap fits good so it is not necessary to glue it.

It can accommodate:

4 vials 30mm diameter

8 vials 22mm diameter

2 vials 20mm diameter

Print it with support.
