### Summary

Three covers for your Wyze Doorbell to deter theft.

[Household](#) > [Outdoor & Garden](#)

Tags: [doorbell](#) [wyze](#)

Three covers for your Wyze Doorbell to deter theft.

They all use #6 flathead screws. You may want to use security screws, like [McMaster 3597N12](#) or similar.

The hinged model uses 1.75mm filament as the hinge pin. That can be heat-staked in place if you desire. It is sized for a padlock with a 3/16" diameter shackle, like the Master Lock 105 padlock or equivalent. e.g. [McMaster 1189A21](#).

These are all based on the [Wyze Doorbell Armor design by Fritzycat](#).

Full disclosure: I have not test-printed the files. Particularly, the hinge may need some tweaking. Let me know and I can adjust it if necessary.
