A friend of mine wanted me to make this for his 2013 Toyota Highlander, so this should work for similar highlanders and models in general. Printed in two pieces to help lock the USB port into place. I tried to make it parametric but I'm not the greatest at that lol.

Printed on a Qidi X-Max 2

Print Settings

Printer Brand:

QIDI

Rafts:

No

Supports:

Yes

Resolution:

.2

Infill:

15%

Filament:

GizmoDorks ABS

Black

Notes:

I would recommend printing this in ABS, ASA, or something with a similar glass transition point, as it's going into a vehicle

Category: Automotive
