updated 26. 11. 2023 | published 26. 11. 2023

Summary

Crafted for effortless printing, the ice scraper boasts a slim profile, ensuring it conforms to your windshield.

[Hobby & Makers](#) > [Automotive](#)

Tags: [ice](#) [scraper](#) [defrost](#)

Crafted with a slim profile, this ice scraper is tailored to mold itself to the windshield's contours during use. Additionally, its design incorporates cutouts strategically placed to enhance grip for better handling while scraping ice.

Recommended Print Settings:

- **Material:** PETG recommended for flexibility; PLA also suitable.
- **Infill:** 100%
- **Layer Height:** 0.2 mm
