Printing

- All parts can be printed without supports.
- Add brims if curling is an issue - especially the smaller pieces.
- Base and middle sections come in multicolor variants for multicolor printers.
- Use a filament swap to get 2 colors on penguin eyes.

Assembly

- Add eyes and beak to head section - add glue if these parts are loose.
- Thread TPU filament or similar thin elastic band from the penguin's head to base.

- Pull the band tight and tie the loop.
- Press the knot into the penguin base and trim any remaining cord.
- Optional: glue on hat
- Optional: glue on feet
- See the video above for the complete assembly process.

Customization

Check out [this collection](#) for more hats and accessories!
