Summary

Cap to cover lights and decrease their brightness in the dark room.

[Household](#) > [Bedroom](#)

Tags: [cover](#) [fisherprice](#) [soother](#)

I made a cover to diffuse lights coming from Fisher-Price Soother when you use it only for sound and don't want to lighten up your room.

I have next model: <https://www.amazon.ca/Fisher-Price-SmartConnect-Deluxe-Soother-SIOC/dp/B01M9C11ZR>

You can print it without supports. I used 0.20 layer height, 0.4 nozzle and Prusament PETG.
