### Summary

Stanley cup name plate. It is just the plate, I used PrusaSlicer to add the text.

[stanleytumbler](#)

Here is a Stanley Cup/Tumbler name plate. It is just the plate, the text can be added in PrusaSlicer (That's how I did it). I made the text only 2mm tall. For smoother text i did enable ironing with 1% feed. (Filled in any line gaps)

Don't forget to do the color change. If using a 0.2 layer height it should be at layer 17.

There are 2 versions, one for 40oz and another for 30oz.

I did take inspiration from another design i found with pumpkins, but this is my own design with my own measurements.

Please feel free to remix, and upload any makes. Also open to suggestions.

I have added another for the 30oz cups with hearts.
