Tags: [cableclip](#) [cablelabel](#)

Maturity: Good.

- 7 prototypes.
- In use since 2023/11.

The clip is for any cables between 4.5 and 7.0 mm diameter.

12.5mm width. Nice for 12mm Dymo style labels.

The clip is easy to remove to change the cable.

I initially designed it for Ethernet cables but any cables between 4.5 and 7.0mm can fit.

Print recommendation:

- The clip accuracy depends on the nozzle diameter then i think anything superior to 0.4 is not recommended.

- Any layer height is good.

Log:

- 2024/01:
  - Better clip holding.
- 2023/11:
  - Initial release.
